सर्वत्र सुखिनः सन्तु सर्वे सन्तु निरामया

The Sanskrit prayer that speaks of the health and wellbeing of every living being on the planet is what the world needs today. For everyone to be in the best of health, for everyone to be at peace and for everyone to progress.

Mother Nature provides us with all the goodness that we need, to live a happy and healthy life. She nurtures, protects, and creates balance within us by offering seasonal, nutritious food. A mother then lovingly accepts from Mother Nature, and cooks these seasonal elements and creates something healthful, tasty and perfect for her children. Our mother, Krishna ben Patel, does exactly this!

*Carefully selected pure and wholesome ingredients are lovingly converted into mouth-watering sweets under her personal supervision. With a passion for cooking and nurturing, she has created a variety of sumptuous delicacies that spread **MITHAAS** - a sweetness that makes the heart smile*
